EXPERIENCE

Assistant Developer Intern at Mantaqi

Aug 2025 - Sep 2025 (02 months) / Remote

- **Tech Stack:** PHP, Laravel, MySQL, SQL
 - Worked on **School SaaS Platform** In collaboration with another tech business, contributing to development and maintenance (PHP, Laravel stack)
-

PROJECTS

Wrytual – Developer Learning Journal Web App

- Built with Next.js (App Router), TypeScript, MongoDB, and Tailwind CSS.
- A daily journal for developers to log what they learn.
- Dashboard with entries filtering, tag system, search, and streak tracker.
- Clean and responsive UI with dark/light themes.
- CRUD operations with server actions and MongoDB integration.
- [Live Preview](#) • [Github Repo](#)

Unique Card Memory Game – Avoid Repeats!

- Developed using React.js and styled with Tailwind CSS.
- Interactive grid-based game with randomized card positions and smooth flip animations.
- Implements randomized card shuffling and logic to track user selections.
- Uses React state hooks to manage game state, score, and high score.
- Responsive design with a clean, minimalist interface.
- [Live Preview](#) • [Github Repo](#)

Fully Functioning Task Management Web App

- Built using HTML, CSS, and JavaScript (Vanilla).
 - LocalStorage for persistent data without backend.
 - Light and Dark Mode toggle for better UX.
 - View by: Active, Completed, or All Tasks.
 - Live Task Counter with real-time updates.
 - Supports adding, editing, canceling, and removing tasks.
 - [Live Preview](#) • [Github Repo](#)
-
